

Exceed your expectations

Join an experienced work place

KMD is on a journey from being Denmark's leading software provider to becoming a leading software provider in Europe, and we are well on the way. We are always looking for experienced graduates to join us on this journey. Are you one of them?

Challenge yourself

For us ambitions means someone who is willing to take on challenging tasks in an ever-changing environment and is are capable of setting the standards higher every day. Forget everything about slow days at the office, being a part of the KMD means being part of a team consisting of skillful and curious individuals. Your work will have a valuable asset and tangible impact from the very first day.

Grow with us

At KMD, your professional growth is important and prioritized. You will be able to challenge yourself in an ambitious environment, but you will also have support and plenty of development opportunities along the way.

Graduate Program Tracks

Project management track, IT track and Sales track.

Meet one of us

Starting at KMD

"I started as part of the Graduate network and already there I felt like connections were instantly made, even though all Graduates come from very different backgrounds. The people responsible for the program invest a lot of time into the program, which for me was very interesting. I didn't know how complex the IT industry was before starting at KMD, but I do now".

The team

"Under the initial phase of the Graduate Program, I was assigned a buddy and a mentor that ensured my development throughout my graduate track. These are very professional individuals and very good coworkers that know what they are doing".

Ambition

"I believe an ambitious and collaborative workplace is essential for my personal growth. KMD's experience in the IT market has showed me the vast opportunities and exciting areas that are to explore. I am more motivated than ever to come to work".

Ida Bjerg Fält-Hansen, 28
SAP Delivery Manager Graduate
