

# What if you could work for a cause, not just a company?

## Rethink your impact

### Work for a cause

#### **Work for a cause, not just a company.**

At Novozymes, we invite you to join us in finding biological solutions to the world's problems. Every year our products help cut global CO<sub>2</sub> emissions by around 90 million tons.

Whether you are driven by science, sales or a different area of expertise, we need you to help us make everyday products more sustainable through nature's smallest powerhouses: enzymes and microorganisms. We need you to help us rethink how we manage the world's limited resources.

To succeed **we want you to come here to grow**, not just to work. We consider learning an enabler to performance, and crucial to our success. Being a pioneering company, we seek people who are eager

to try new things. Who are motivated by challenge and not afraid to fail but driven to try again. And again.

At Novozymes, **we want you to work in a way that works with your life.** Original thinking happens when we're given the flexibility to focus and the freedom to fully unfold our individual strengths. This is key to our innovation power and how we have become one of the top patent holders in the biotech industry.

So, join our global network fueled by diversity, personal freedom and mutual trust. Here we invite you to reach out, connect and grow your knowledge by sharing it.

Together we find biological answers for better lives in a growing world.

**Together we rethink tomorrow.**
