

HELP US PUSH THE BOUNDARIES OF SPORT THROUGH TECHNOLOGY

TrackMan is a fast-growing sports technology company. We make radar- and vision-based tracking devices, software applications, and a golf simulator solution. Our products provide extremely accurate, valuable insights that help to take some of the world's most famous sports stars to the top of their game. Athletes ranging from top world-class professionals through to enthusiastic amateurs, as well as coaches, scouts and clubs of all levels rely on TrackMan data.

Trackman was founded in 2003 and employs more than 400 employees worldwide. Approximately half our workforce is based in Denmark, where most products are developed, tested and manufactured.

TRACKMAN

A CEASELESS SEARCH FOR EXCELLENCE

At TrackMan, we believe that teams thrive in an ambitious yet informal atmosphere where people are encouraged to think for themselves. We have some of the sharpest minds within the fields of hardware and software development, signal processing, mathematical modeling, computer vision, machine learning, and tracking algorithms coming together to deliver unique technical solutions.

"I feel proud to work in a company that is leading in the market and produces everything in-house. I am inspired by my intelligent colleagues. They make me want to level up and be better all the time. The working environment feels very safe, there is room for diversity and different nationalities, and everyone is so nice and always willing to help."

Hind Sghyer, MSc in Plant Biology
BI & Analytics Developer

"Being an engineer, I am passionate about technical and elegant solutions, and it is exciting to be surrounded by experts. As a Project Manager, I am in touch with people from many different fields, which I enjoy."

"It is great to get different opinions on a solution. I learn something new every day, even though I am quite experienced in my own field."

Tommy Nielsen, BSc in Electrical Engineering
Project Manager in R&D

UNLEASH YOUR POTENTIAL

TrackMan is a place where decisions are taken quickly and innovation is a reality, not a buzzword. We know that great people make great products so if you are looking for a workplace where there's room for you to really unleash your potential, you have found it.

"Luckily for me TrackMan hires people based on what you can do, not what you have previously done. I worked with plant and food data for more than 15 years so Trackman trusted that I could also create value with the data produced by TrackMan products. TrackMan is the perfect place for me because I love sports and analyzing data"

Hind Sghyer, MSc in Plant Biology
BI & Analytics Developer
