

# A guide to Betalingservice

Betalingservice is an automated payment service that you can use to pay bills in Danish kroner to the creditors - i.e. IDA - connected to the system. Once you have entered into a payment agreement, IDA can initiate payments from your account.

Please note that when you sign up it may take some time before your registration is processed and the automatic payments take effect. Therefore, be sure to pay the following bills that may arrive in your e-box or in the post. Once the payments are automated, the bills will no longer appear in your e-boks or post.

If you are unsure if you have signed your IDA membership up for Betalingservice, check your active agreements in your online bank.
